

Transport

The Steiss Transport sling is suitable for those patients with a degree of weight bearing ability. It is an easy fit, general-purpose sling giving full support to most clients. It will not suit double amputees or lifting from a horizontal position.

- ✓ Fully padded design offers excellent patient comfort
- ✓ Coloured attachment loops promote correct/safe positioning
- ✓ Non-slip back section ensures the sling does not 'ride up'
- ✓ Adjustable waist strap for added support and security
- ✓ Can be customised to fulfil patient specific needs
